**VIRGINIA NATIONAL BANKSHARES CORPORATION  
ANNOUNCES 2025 FULL YEAR RESULTS  
AND QUARTERLY DIVIDEND**

Charlottesville, VA – January 29, 2026 - Virginia National Bankshares Corporation (NASDAQ: VABK) (the “Company”) today reported quarterly net income of \$6.0 million, or \$1.10 per diluted share, for the quarter ended December 31, 2025, compared to the \$4.6 million, or \$0.85 per diluted share, recognized for the quarter ended December 31, 2024. For the twelve months ended December 31, 2025, the Company recognized net income of \$19.3 million, or \$3.55 per diluted share, compared to \$17.0 million, or \$3.15 per diluted share, for the twelve months ended December 31, 2024.

The increase in 2025 year-to-date net income as compared to the prior year was primarily the result of decreased interest expense, as a result of the reduction in cost of funds associated with deposits and borrowings. Cost of funds declined 28 bps year-over-year while yields on earning assets held steady despite several reductions in the prime rate.

***Dividend Declaration***

On January 27, 2026, the Company's Board of Directors declared a quarterly cash dividend of \$0.36 per share of common stock payable on February 27, 2026, to the holders of record at the close of business on February 13, 2026. The quarterly cash dividend represents an annual yield to shareholders of approximately 3.57% based on the closing price of the Company's common stock on January 27, 2026.

***President and Chief Executive Officer's comments:*** "Our strong fourth quarter performance demonstrates our continued attention to strategic operating efficiency and sustainable growth, with increased net income of \$1.4 million over the prior quarter," stated Glenn W. Rust, President and Chief Executive Officer. "Loan growth was modest for the quarter and the year, but our strong asset quality continues to enhance financial results, and our capital and liquidity positions remain strong."

***Key Performance Indicators***

***Fourth quarter 2025 compared to third quarter 2025***

- Return on average assets improved to 1.45% from 1.12%.
- Return on average equity improved to 13.04% from 10.48%.
- Net interest margin (FTE)<sup>1</sup> improved to 3.50% from 3.43%.
- Loan-to-deposit ratio decreased to 86% from 89%.
- Efficiency ratio (FTE)<sup>1</sup> improved to 49.5% from 57.9%.

***December 31, 2025 Balance Sheet Highlights***

- Gross loans outstanding as of December 31, 2025 totaled \$1.2 billion, an increase of \$1.6 million, or 0.1% compared to December 31, 2024. The Company experienced modest loan growth in the fourth quarter of 2025, with gross loan balances increasing \$2.6 million from September 30, 2025.
- Deposit balances at December 31, 2025 increased \$46.8 million or 3.4% from September 30, 2025, and increased \$8.2 million since December 31, 2024. This fourth quarter increase is the combined result of the Company's choice to maintain interest rates despite prime decreases and normal corporate deposit behavior at the end of the calendar cycle.

<sup>1</sup> See "Reconciliation of Certain Quarterly Non-GAAP Financial Measures" at the end of this release.

- Securities balances declined \$5.4 million from September 30, 2025 to December 31, 2025 as the Company allowed the proceeds from natural maturities and cash flow to fund earning assets with more attractive yields.
- The Company utilizes a third-party to offer multi-million-dollar FDIC insurance to customers with balances in excess of single-bank limits through reciprocal Insured Cash Sweep® (ICS) plans. Deposit balances held in ICS plans amounted to \$200.4 million as of December 31, 2025, \$166.6 million as of December 31, 2024 and \$145.2 million as of September 30, 2025.
- Outstanding borrowings from the FHLB as of December 31, 2025 were \$20.0 million, a decrease of \$10.0 million from September 30, 2025. The balance at December 31, 2024 was \$20.0 million.
- As of December 31, 2025, the Company had unused borrowing facilities in place of approximately \$233.0 million and held no brokered deposits.

#### ***Loans and Asset Quality***

- Credit performance remains strong with nonperforming assets as a percentage of total assets of 0.56% as of December 31, 2025, 0.42% as of September 30, 2025 and 0.19% as of December 31, 2024.
- Nonperforming assets amounted to \$9.2 million as of December 31, 2025, compared to \$6.8 million as of September 30, 2025 and \$3.0 million as of December 31, 2024;
  - Fourteen loans to thirteen borrowers are in non-accrual status, totaling \$2.2 million, as of December 31, 2025, compared to \$2.6 million as of September 30, 2025 and \$2.3 million as of December 31, 2024.
  - Loans 90 days or more past due and still accruing interest amounted to \$7.0 million as of December 31, 2025, compared to \$4.2 million at September 30, 2025 and \$754 thousand as of December 31, 2024. The past due balance as of December 31, 2025 is comprised of seven loans totaling \$6.6 million which are 100% government-guaranteed, one loan secured by residential real estate totaling \$391 thousand and three student loans totaling \$86 thousand.
  - The Company currently holds no other real estate owned.
- The period-end Allowance for Credit Losses on Loans (“ACL”) as a percentage of total loans was 0.67% as of December 31, 2025, 0.69% as of September 30, 2025 and 0.68% as of December 31, 2024. The individual differences in the balances of various pools as well as changing loss rates have resulted in only nominal changes to the overall ACL ratio. The proportionate increase in government-guaranteed loans over the respective periods is also a main driver holding the ACL as a percentage of total loans fairly steady year-over-year. Balances in such loans are 100% government-guaranteed and do not require an ACL.
- The fair value mark that was allocated to the acquired loans was \$21.3 million as of April 1, 2021, with a remaining balance of \$4.8 million as of December 31, 2025.
- For the three months ended December 31, 2025, the Company recorded a net recovery to the provision for credit losses of \$36 thousand, due primarily to updated analysis performed on the Company's loans secured by marketable securities and cash, netted against additional provision for loan growth and unfunded commitments. The reserve for unfunded commitments increased by \$140 thousand.

#### ***Net Interest Income - Quarterly Comparison***

- Net interest income for the three months ended December 31, 2025 of \$13.3 million increased \$1.1 million, or 9.1%, compared to the three months ended December 31, 2024, predominantly due to decreased interest expense associated with deposit accounts, coupled with increased interest income earned on loans and federal funds sold driving an additional net increase.
- Net interest margin (FTE), (a non-GAAP financial measure)<sup>1</sup>, for the three months ended December 31, 2025 was 3.50%, compared to 3.21% for the three months ended December 31, 2024. The increase as compared to the fourth quarter of 2024 was primarily due to the decrease in cost of funds, as described below.
- The Bank's yield on loans was 5.74% for the three months ended December 31, 2025, compared to 5.63% for the prior year same period. The accretion of the fair value mark related to purchased loans positively impacted interest income by 13 bps in the fourth quarter of 2025, and 13 bps in the fourth quarter of 2024.

---

<sup>1</sup> See "Reconciliation of Certain Quarterly Non-GAAP Financial Measures" at the end of this release.

- The overall cost of funds, including noninterest-bearing deposits, of 173 bps incurred in the three months ended December 31, 2025 decreased 21 bps from 194 bps in the same period in the prior year. Overall, the cost of interest-bearing deposits decreased period over period by 24 bps, from a cost of 2.51% to 2.27%. The cost of borrowings from the FHLB decreased 35 bps from the fourth quarter of 2024 to the fourth quarter of 2025, from 4.33% to 3.98%.

#### ***Noninterest Income - Quarterly Comparison***

Noninterest income for the three months ended December 31, 2025 decreased \$595 thousand, or 26.2%, compared to the three months ended December 31, 2024, primarily as a combined result of lower fee income from debit card usage in 2025 and early extinguishment of debt in 2024.

#### ***Noninterest Expense - Quarterly Comparison***

Noninterest expense for the three months ended December 31, 2025 decreased by \$1.3 million, or 14.9%, compared to the three months ended December 31, 2024. The 2025 quarter reflected service refunds and credits within data processing expense received as a result of negotiations with the Company's core processing provider.

#### ***Efficiency Ratio - Quarterly Comparison***

The Company's efficiency ratio (FTE)<sup>1</sup> improved to 49.5% for the three months ended December 31, 2025 compared to 60.2% for the three months ended December 31, 2024, as the impact of increased net interest income (FTE)<sup>1</sup> and decreased noninterest expense more than offset the decrease in noninterest income. On a year-to-date basis, the efficiency ratio (FTE)<sup>1</sup> improved to 57.6% in 2025 compared to 62.0% in 2024, also because of increased net interest income (FTE)<sup>1</sup>.

#### ***Income Taxes - Quarterly Comparison***

The effective tax rates amounted to 21.4% and 22.0% for the three months ended December 31, 2025 and 2024, respectively. For each period, the effective income tax rate differed from the U.S. statutory rate of 21% due to the adoption of the proportional amortization method for accounting for low-income housing tax credits, which increased tax expense, net of the recognition of low-income housing tax credits and the effect of tax-exempt income from municipal bonds and income from bank owned life insurance policies.

#### ***Book Value***

Book value per share increased to \$34.15 as of December 31, 2025, compared to \$29.85 as of December 31, 2024, and tangible book value per share (a non-GAAP financial measure)<sup>1</sup> was \$32.21 as of December 31, 2025 compared to \$27.70 as of December 31, 2024. These values increased as net retained income increased, the impact of intangible assets declined due to the ongoing amortization of the Company's core deposit intangible asset, and the reduction in accumulated other comprehensive income.

#### ***Dividends***

Cash dividends of \$1.9 million, or \$0.36 per share, were declared and paid during the fourth quarter of 2025. The remaining 67% of net income was retained.

<sup>1</sup> Ratio is computed on an annualized basis.

<sup>2</sup> The net interest margin and net interest income are reported on a fully tax-equivalent basis (FTE) basis, using a Federal income tax rate of 21%. This is a non-GAAP financial measure. Refer to the Reconciliation of Certain Non-GAAP Financial (FTE) Measures at the end of this release.

<sup>3</sup> The efficiency ratio (FTE) is computed as a percentage of noninterest expense divided by the sum of net interest income (FTE) and noninterest income. This is a non-GAAP financial measure that management believes provides investors with important information regarding operational efficiency. Management believes such financial information is meaningful to the reader in understanding operating performance, but cautions that such information should not be viewed as a substitute for GAAP. Comparison of our efficiency ratio with those of other companies may not be possible because other companies may calculate them differently. Refer to the Reconciliation of Certain Non-GAAP Financial (FTE) Measures at the end of this release.

<sup>4</sup> The Bank held no other real estate owned during any of the periods presented.
